Academic Projects

Trendy Threads – Virtual Try-On Clothing Website

Technology : Next.js , Tailwind CSS , HTML5 , CSS3 , GSAP , Responsive Web Design

Trendy Threads is a stylish online clothing website with a virtual try-on feature that lets users preview outfits in real time. The site offers a premium UI with smooth animations and a fully responsive design.

Responsibilities:

- Designed and developed the entire frontend using **Next.js** and **Tailwind CSS**
- Implemented **virtual try-on functionality** to simulate clothing on user avatars
- Integrated **responsive UI** with GSAP animations for high-end visual feel
- Managed cart functionality and customer-side order flow using **JavaScript and LocalStorage**
- Ensured **cross-device compatibility** and a seamless UX

Experience :

Front End Developer Intern | LOGIC CUBE EDHUB

Ahemedabad , India| Aug 2024 – Jan 2025

- build an **eCommerce website** using **Next.js**.
- Created responsive web pages with **React.js** and **Next.js**.
- Connected the site to **REST APIs** to show live product data and manage users.
- Improved website speed using **lazy loading** and **code-splitting**.
- Made the site more visible on search engines by using **server-side rendering (SSR)**.
- Worked with the team in an Agile environment, attending meetings, and planning sprints.
